World class quality

## > GENERAL DESCRIPTION

Manufactured by the Fillon Group, the world leader in paint mixing equipment.

The aerosol-filling pneumatic machine Fill Spray 40.1 was designed for repetitive aerosol filling by the working professional.

Fillon's experience and understanding of paint preparation equipment guarantees your complete satisfaction.

## > TECHNICAL SPECIFICATIONS

Pneumatic functioning from an air supply of 8 bar  $\pm$  2.

Aerosol cans are self-positioned into the filling cylinder.

A 100 ml filling-cylinder made of durable Anodised aluminium.

Includes a convenient adjustable pedestal.

PTFE piston heads can be easily and quickly dismantled for cleaning operation.

The Fill Spray 40.1 is finished with a tough epoxy powder coated finish.

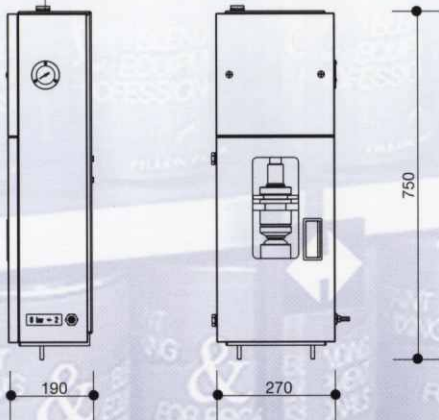

## > OPTIONS
